

**We'll help you build your dream EMR,  
right out of the Profile box.**

**Profile + AcceEMR™ = Proven Performance**

Congratulations! You are the proud owner of one of the most powerful and flexible EMR's available: Profile from Intrahealth. Profile is much like a high performance engine, it has the power to revolutionize the way you practice medicine. To get optimal performance from that engine in a vehicle that's easy to drive, you need the right body, chassis and accessories to complete the package.

That's why Intrahealth is introducing you to us. We're AcceEMR Solutions, and our passion is empowering you and your team to love what you do, by providing the tools and expertise to make Profile run smoothly, with improved handling right from the starting line. We've done the work for you, so you can harness the power of Profile right out of the box and for years to come.

### **Quick Facts about AcceEMR**

- An integrated suite of EMR and medical practice optimization tools
- Saves our clients up to \$10,000 annually per user
- Intrahealth promotes AcceEMR to enhance the functionality of Profile
- Developed in BC by physicians for physicians

***Take a test drive. We think you'll like what we've built.***

We'll show you what's under the hood for **FREE**:

Visit [www.acceEMR.com/bonusoffers](http://www.acceEMR.com/bonusoffers) to receive AcceEMR Lab Investigations & Sets, as well as Quick Bytes, our training guide of user tips.

***Don't delay – the sooner you start, the smoother the ride!***

## The AcceEMR Advantage

- Customization of Profile - Settings, preferences and defaults
- Content additions to Profile:
  - Dozens of auto-populating Smart Forms made for BC enable greater speed and accuracy
  - Extensive collection of typing templates and auto-populating letter templates
  - Our Disease, Procedure, and Investigation Codes keep records organized and searchable
- Enhanced lab ordering – intuitive evidence-based Sets and Tests embedded with information for physician and patient
- Extensive library of patient Information and Provider Reference materials
- Workflow Integration - Patient flow, incoming and outgoing document management
- Our clearly written User Manual is as easy as “paint by number” for your clinic to implement

AcceEMR represents years of experience with Profile and other medical office systems and was created by physicians for physicians. AcceEMR 2012 delivers a fully loaded suite of EMR and medical office optimization tools based on best practices that are essential for a smooth Profile rollout, so you can get on with your daily driving. We call this "EMR Optimization" - you'll love the way it handles.

Whether you intend to be a Sunday driver or aspire to drive in the fast lane, AcceEMR provides the right mix of horsepower, fine tuning and engineering, so you can lead the pack - without the headaches. Why spend your time reinventing the wheel? We've already road tested it for you.

*"Using AcceEMR with Profile has allowed us to become much more efficient and focus more of our time on caring for our patients. The tools are easy to implement, and in particular, I have found the investigations panel and the huge library of auto-populating forms to be of great benefit. In terms of the time required to build such a program, it certainly is of great value."*

- Dr. Manjit Gosal, Abbotsford, BC

## About AcceEMR Solutions

Our passion is helping clinics optimize their EMR so that it integrates smoothly with the rest of their office workflow. AcceEMR provides optimal customized settings, valuable time-saving tools; intuitive, effective workflow systems; and simple, practical training. Our mission is to support physicians and other medical organizations, in their quest to love their work and provide excellent care to their patients. Our focus is on system optimization, to help you leverage Profile to drive your practice to the next level.
